How to Create a Web Link for a Case Study

Completed Case Studies can be shared online by creating an external web link. To do this:

- Hover over **Evidence** and select **Case Studies**

- Click on the relevant Case Study

- Click on the **Pencil** icon

- Select **Yes** in the **Use Public URL** field

- To password protect the Case Study, enter a password in the **Password** field

- Click **Save**
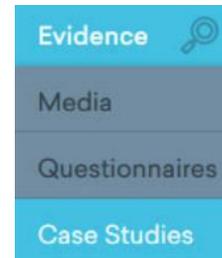

The online link to the Case Study will be displayed in the **External URL** field.

External Access	
Use Public URL	Yes
External URL	http://app.internal.viewsapp.net/externalview.php?uid=602d2b4e5e081
Password
