

How to Log into the App

The first time you access the app it may take a few moments to download all sessions. In the app settings, you can enable Biometric log in, so that fingerprint or facial recognition can be used to access the app in the future. Please see the final section of this guide, How to Change the App Settings, for more information.

1. Open the app
2. Enter your **Username** and **Password**. These are the same details that you use to access your Views account
3. Click **Log in**
